### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for the Examiner's Amendment was given in an interview with Brian Kaul (612) 330-0592 on May 27, 2010.

#### ***In the Claims***

1. Claims 1 – 13 have been canceled.

#### ***Allowable Subject Matter***

2. Claims 14 – 21 are allowed.

#### ***REASONS FOR ALLOWANCE***

3. The following is an examiner's statement of reasons for allowance:

The most remarkable prior art of record is MaGuire (U.S. Patent Publication No. 2004/0059651) and Gorelik (U.S. Patent Publication No. 2001/0047372).

The Examiner agrees with the remarks by the Applicant submitted March 3,

Art Unit: 3687

2010. In regard to independent claim 14, "Gorelik fails to disclose that the rules 210 include "a destination column class defining destination column objects each identifying a destination column of the reporter table" or "an association class defining association objects each identifying an association of at least one source column of the financial table with a destination column identified by a corresponding destination column object," as recited in independent claim 14. In fact, Applicant was not able to locate any discussion of the rules 210 in Gorelik. Thus, there is no support for the Examiner's finding."

In addition, "...the mere recitation of the existence of an ETL system that uses ETL packages, is not sufficient to provide support for the disclosure of a system or method that configures ETL packages for use in ETL systems, as provided in claim 14.

Accordingly, the cited references do not disclose "an ETL designer module stored on the tangible computer-readable medium, executable by the processor, and designed to configure the ETL package," or "generating instructions for configuring an ETL package, responsive to executing the ETL designer module," as provided in claim 14. Therefore, the references, taken either alone or in combination, fail to disclose the system of claim 1 or the method of claim 14. "

None of the prior art of record remedies the deficiencies found in MaGuire and Gorelik. Furthermore, neither the prior art, the nature of the problem, nor knowledge of a person having ordinary skill in the art, provide any reasonable rationale to combine prior art teachings.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. "Manugistics and Acta Announce Strategic Alliance to Provide Higher Volume Data Integration for Enterprise Profit Optimization." *Business Wire*, Nov 12, 2001: p 2499
